

Sussex County Charter School for Technology

POLICY

5131.2 - End of Year Discipline (4300.1)

After school buses generally end three weeks before the end of the school year. As a result, discipline issues become complicated, as students will need to be picked up by a parent/guardian.

As it is vital that the school be able to maintain discipline until the very last day of school, the following options will be put in place.

1. Student may serve regular teacher or administrative detentions, but must be picked up by a parent/guardian.
2. Student may opt to serve the required number of hours on a Saturday – with prior arrangement with the Principal. Parents/guardians are responsible for this transportation as well.

Failure to serve an assigned disciplinary action will result in the withholding of promotion certificates, report cards and the transfer of any records to another school until the detention is served.
