September 23, 2015

Dear Parents and Guardians,

We are excited to have made an adjustment to our schedule that will allow for more time in the day for students to complete their work, as well as differentiated and independent learning for all of the students at Sussex County Charter School.

Students will now receive one half hour a day for an Enrichment period in place of Foundations. Because of this change, we are pleased to be able to offer the following options for our students on a daily basis.

- Time to work on homework
- Extra help from subject area teachers
- An opportunity for D.E.A.R. Time (Drop Everything And Read)
- More challenges in specific subject areas
- Enriching independent projects that are student-driven and teacher-approved.

In addition to this independent work, most clubs will also meet periodically during this time period.

This new opportunity for students is designed to begin fostering independence and ownership of their educational needs. Not only will it help students meet their academic goals, but it will also provide a venue for students to pursue their areas of strength or interest in a more focused way.

Enrichment period will begin on Friday, September 26th. The staff members at Sussex County Charter are enthusiastic about beginning this innovative approach to learning. If you have any questions, please feel free to contact me.

Sincerely,

Deirdre Mastandrea

Principal

Sussex County Charter School for Technology
